Artwork Supplied by Client

We require:

- Artwork on CD ROM, DVD or email (we can accept files up to 10MB) in Mac format only.
- A colour-correct digital proof or a laser proof with suppliers' contact details clearly marked. If a colour correct proof is not supplied, Publicity Press is unable to guarantee colour accuracy.
- Any areas of black larger than 5mm², must be made up of 40 cyan, 30 magenta, 30 yellow, 100 black.
- Please specify clearly if you want artwork files returned.

We prefer:

- High-res Acrobat PDF format, CMYK colour mode with no spot colours. Contact Publicity Press if you are unsure of PDF setup details.
- Please ensure PDFs have 5mm bleed, and that crop marks, registration marks etc, are either offset outside the bleed area (eg: offset to 6mm) or removed completely.

Will also accept the following:

- TIFF or EPS files at minimum 300dpi in CMYK colour mode.

We do NOT accept the following:

- Finished artwork in any form that can be altered (eg InDesign or Quark documents). This is to ensure that artwork that has been signed off by a client cannot accidentally be altered by Publicity Press.

Design agencies are responsible for ensuring their client approves artwork before it is sent to Publicity Press.
